

A wide-angle photograph of a group of five people walking away from the camera on a beach at sunset. The sun is low on the horizon, creating a bright orange and yellow glow that silhouettes the individuals. The group consists of four adults and one child. The ocean is visible in the background, and the sky is a deep, warm orange. The overall mood is peaceful and communal.

RESHAPING COMMUNITIES

As Chairman of the Board at Convoy Developments, I don't just see buildings, I see possibilities. Possibilities for vibrant communities, thriving businesses, and a redefined Red Sea experience.

My business and financial analyst role allows me to peer beyond the present and envision the future landscape. With the leadership and experience of Mr. Essam Al Banna and our talented team, we are architects of that future.

Convoy Developments isn't simply a developer; it's a visionary force under the Haya umbrella. We are not content with replicating the past, but driven to push boundaries and create groundbreaking projects.

We are poised to launch a series of ambitious ventures with significant investments, not just shaping the Red Sea coast, but redefining its essence.

Our vision extends far beyond these individual projects. We aim to create a tapestry of experiences, woven together to form a vibrant future on the Red Sea coast.
